Japan has lots of great culture such as *judo*, *sado* (tea-ceremony), and *shodo* (calligraphy). "Do" means the way. "*Shodo*" is a way that leads to life's meaning and eternal truth with "artistic hand writing or beautiful writing."

Calligraphy is one of the most spiritual and powerful forms of art. Each letter reflects a person's mind, vision, thoughts and energy. Every line, dot and even the empty spaces are meaningful with their balance, size and the amount of ink used. It is important to purify your mind and soul in order to express each word's power with its character.

Let's enjoy this dynamic and delicate **Calligraphy** with the unique movement of brush, rhythm and energy. I hope you'll find your hidden thoughts and passion through **Calligraphy**, and improve your concentration and mental strength!!

Classes run in 7-week blocks every Thursdays from 10:30 – 11:30 in the Yellow room. The cost of the course is 95 euros including all materials. **First class will start on 13th September, 2018.**
